

HOMES OF HOPE

Hi! My name is Lauren Sommer. I am currently working on my gold award. I am working with homes of hope which goes to the poorer areas of Mexico to build houses for families that can't afford a house. I am sewing curtains that can be used in these houses. In order to make these curtains I am asking for

fabric donations. The pieces of fabric must be at least 42 inch by 58 inch or larger. I can also use sheets that are in good condition. In addition to fabric I am collecting rice, beans, and blankets that will be donated to the families. There will be a donation box in the hallway or you can drop them off at my house.
