

# Coyote and Rattlesnake Awareness

## **Educate Your Girl Scout Troop about Safety Amongst Animals in their Community and Awareness about Home Evacuation.**

After the 2008 fires, not only have our lives been affected, but animal homes have been taken too, setting native Californian animals like rattlesnakes and coyotes on the search to find new homes. Teach your girls how to deal with these animals if they encounter them and all about safety in their homes during fires plus evacuation tips and strategies.

**Contact** Simran Chadha at (714) 996-0599 or [drchadha@hotmail.com](mailto:drchadha@hotmail.com) to arrange for a troop visitation about these issues during a meeting or another convenient time.

For the Leaders... As my Silver Award Project, my Cadette troop, 1886, and I are working towards restoring the Tile Wall that was burned down in Box Canyon Park. My addition to this project is to educate youth about topics pertaining to this event, and would very much appreciate your support by inviting me to one of your troop meetings to present. Thank you. The information presented may be used toward try-it or badge work.
